

MUHAMMAD KHALID FOUAD

Data Analyst | SQL - Power BI - Python

+20 109 800 5360 • muhammad6fouad@gmail.com • [linkedin.com/in/muhammadrkhalidfouad](https://www.linkedin.com/in/muhammadrkhalidfouad) • Cairo, Egypt

PROFESSIONAL SUMMARY

Results-driven Data Analyst with 5+ years of progressive experience in data operations, analysis, and management across import/export, pharmacy, and digital media industries. Proficient in SQL, Python, Excel, and data preprocessing with a proven track record of delivering accurate, high-quality data products under tight deadlines. Adept at automating workflows, building reliable databases, and translating data trends into actionable business insights. Currently expanding expertise in advanced SQL, machine learning, and statistical analysis to drive data-driven decision-making.

WORK EXPERIENCE

Anti-Piracy & Data Specialist | *Cyber Theft Watch*

Mar 2024 – Present

Remote | Part-Time

- Implemented web scraping automation solutions using Python to gather, verify, and process pirate data, saving over 70% of work done manually.
- Collected and analyzed over 100,000+ piracy-related URLs and links, supporting large-scale content protection and enforcement initiatives.
- Monitored and investigated pirated content across 10–20 online platforms and sources, improving detection coverage and identification accuracy.
- Directed and coordinated a small remote team where I assigned tasks, reviewed results, and ensured the timely completion of research and data tracking goals.

Data Specialist | *Welz for Import & Export*

Apr 2019 – Sep 2024

Suez, Egypt | Full-Time

- Entered, updated, and maintained high-volume business data across multiple computer systems, consistently achieving 100% accuracy and improving data timeliness.
- Streamlined data entry workflows, resulting in measurable gains in team efficiency and reduced processing time.
- Conducted regular data quality audits — identifying and eliminating duplicate, incomplete, and inaccurate records to preserve data integrity.
- Compiled, analyzed, and interpreted operational data trends, delivering actionable insights that directly supported management decision-making.
- Collaborated cross-functionally with teammates to maintain synchronized and reliable data across departments.

Data Entry Operator | *Rania Abu Bakr Pharmacies*

Nov 2019 – Oct 2020

Cairo, Egypt | Full-Time

- Entered and updated drug receipts, client records, and inventory data across pharmacy management systems with 100% accuracy during the critical COVID-19 pandemic period.
- Performed daily data quality checks, eliminating duplicates and inaccurate entries to ensure compliant and reliable pharmacy data.
- Analyzed and interpreted pharmaceutical data trends to support operational decision-making and streamline pharmacy workflows.
- Collaborated closely with pharmacy staff to maintain data integrity and support the organization's pandemic response operations.

TECHNICAL SKILL

Data Analysis & Query: SQL (Intermediate–Advanced), Python (Pandas, Matplotlib, NumPy), Excel (Advanced), DAX

Data Preprocessing & ETL: Data Cleaning, Data Quality Control, Data Validation, Deduplication, Power Query

Automation & Scripting: Python, Web Scraping (BeautifulSoup, Scrapy, Selenium), Custom Workflow Scripts, N8N

Database Management: Database Design, Data Entry Systems, MS SQL Server, Database Fundamentals

Tools & Platforms: MS Office 365 (Expert), Jupyter Notebook, Git, Google Sheets

Machine Learning (Foundational): Scikit-learn, Keras, OpenCV — Basic proficiency, actively learning

Soft Skills: Attention to Detail (Expert), Time Management (Expert), Teamwork (Expert), Communication (Expert)

EDUCATION

Bachelor's Degree in Management Information Systems | [Suez Institute for MIS](#)

Graduated: May 2024 | GPA: 3.4 / 4.0 | Graduation Project Grade: Excellent

Relevant Coursework: Database Management, Information Systems, Business Analytics, Computer Science Fundamentals, Data Processing, Systems Analysis & Design

CERTIFICATIONS

- CS50's Introduction to Databases with SQL — edX / Harvard (2024)
- Data Preparation in Excel — DataCamp (2024)
- Excel Skills for Business Job Simulation — Forage (2024)
- Introduction to Statistics in Python — DataCamp (2023)
- Web Scraping in Python — DataCamp (2023)
- Intermediate SQL — DataCamp (2023)
- Database Fundamentals — MaharaTech (2023)

KEY ACHIEVEMENTS

- Maintained 100% data accuracy across 5+ years of data operations roles, processing thousands of records with zero reported data integrity failures.
- Automated a multi-step research and data extraction workflow using Python, cutting processing time significantly and enabling the team to scale operations.
- Delivered consistent data quality improvements at Welz for Import & Export, streamlining processes that supported faster, more informed business decisions.
- Earned 8 professional certifications across SQL, Python, Excel, and data analysis, demonstrating a self-directed commitment to continuous technical development.
